

PROFESSIONAL PORTFOLIO 2026

MAREK WIĘTECHA

QUALITY CONTROL | METROLOGY |
DIMENSIONAL INSPECTION | 3D SCANNING

MEASURE.

ANALYZE.

IMPROVE.

01

ABOUT ME

I am a Quality and Metrology professional with over 20 years of experience in **dimensional inspection**, **3D scanning** and process improvement within the automotive and agricultural machinery industries.

Passionate about **accuracy**, **continuous improvement** and delivering results that drive quality and efficiency.

20+
YEARS

PROFESSIONAL
EXPERIENCE

13+
YEARS

IN AUTOMOTIVE &
AGRICULTURAL INDUSTRY

100+

MEASURING & INSPECTION
PROJECTS

CONTINUOUS
IMPROVEMENT

LEAN, 5S, SPC, FMEA
PPAP, AUDITS

MY CORE VALUES

ACCURACY
Precision in every
measurement

INTEGRITY
Honest, reliable and
responsible

IMPROVEMENT
Always seeking
better solutions

TEAMWORK
Collaborating for
shared success

“

*Quality is not just a standard,
it's a **mindset**.*

”

MEASURE.

ANALYZE.

IMPROVE.

MAREK WIETECH | QUALITY CONTROL | METROLOGY | DIMENSIONAL INSPECTION | 3D SCANNING

INDUSTRIES & EXPERIENCE

I work across a variety of industries, applying metrology and quality expertise to ensure precision, reliability and continuous improvement at every stage of production.

13+

YEARS IN AUTOMOTIVE & AGRICULTURAL MACHINERY INDUSTRY

100+

MEASURING & INSPECTION PROJECTS COMPLETED

MULTI

INDUSTRY EXPERIENCE
AUTOMOTIVE | AGRICULTURE
CONSTRUCTION | MANUFACTURING

AUTOMOTIVE

Dimensional inspection of welded components, fixtures and assemblies.

AGRICULTURAL MACHINERY

Quality control of components for combines, headers, balers and other agricultural equipment.

CONSTRUCTION EQUIPMENT

Inspection of structural components and machined parts for heavy equipment.

GENERAL MANUFACTURING

Precision measurement and quality assurance for a wide range of manufactured parts and products.

*Different industries, one standard:
Precision. Quality. Improvement.*

WHAT I DELIVER

ACCURACY
Reliable results you can trust

QUALITY
Meeting standards and exceeding expectations

EFFICIENCY
Process improvement that drives better performance

COLLABORATION
Working together to achieve shared goals

MEASUREMENT EQUIPMENT

Advanced and calibrated equipment ensures **accurate**, **reliable** and **repeatable** results for every inspection and quality decision.

HEXAGON ABSOLUTE ARM 7 AXIS

Portable articulated measuring arm for dimensional inspection and reverse engineering.

SMART SOLUTIONS 3D SCANNER + ZG-TRACK

Optical 3D scanning system for high-accuracy inspection of large components and welded structures.

DEA COORDINATE MEASURING MACHINE (CMM)

High-precision coordinate measuring machine used for dimensional verification and PPAP measurements.

MEASUREMENT CAPABILITIES

- ✓ Dimensional Inspection
- ✓ 3D Scanning
- ✓ Surface Roughness
- ✓ Form Measurement
- ✓ Coating Thickness
- ✓ GD&T Verification
- ✓ PPAP Support
- ✓ Incoming Inspection

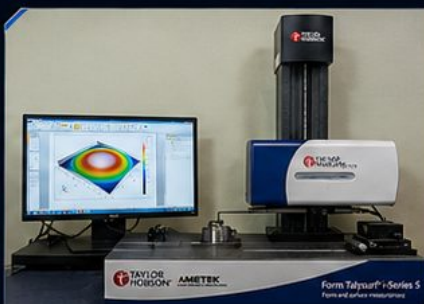

TESA MICRO-HITE 6

Height gauge for precise dimensional and geometric measurements.

TESA RUGOSURF 90G

Portable surface roughness tester for Ra, Rz and other surface texture parameters.

TAYLOR HOBSON FORM TALYSURF

Form and surface measurement system for roughness, waviness and profile analysis.

ELEKTROPHYSIK

Coating thickness measurement on steel and aluminium substrates.

HAND MEASURING TOOLS

Calipers, micrometers, height gauges, thread gauges, depth gauges and precision measuring tools.

CALIBRATED & TRACEABLE

Regularly calibrated and traceable to national standards.

HIGH ACCURACY

Precision instruments for reliable and repeatable results.

QUALITY ASSURANCE

Supporting quality control and continuous improvement.

ADVANCED TECHNOLOGY

Modern equipment for every inspection challenge.

SOFTWARE & SYSTEMS

I use advanced software and digital systems to support **measurement**, **analysis**, **quality control** and **production** processes across the manufacturing environment.

DIGITAL TOOLS

that support accuracy, efficiency and continuous improvement.

ENGINEERING & METROLOGY SOFTWARE

Measurement, inspection and 3D data processing

pc-dimis™

PC-DMIS

CMM programming, measurement routines and dimensional inspection.

PolyWorks®

POLYWORKS

Universal 3D metrology software for measurement and analysis.

Geomagic® Control X™

GEOMAGIC CONTROL X

CAD comparison, GD&T analysis and 3D inspection.

Hx HyperScan®

HYPERSCAN

3D scanning software for fast and accurate point cloud processing.

ENTERPRISE SYSTEMS

ERP, quality management and product lifecycle

SAP

Enterprise resource planning system.

SAP QM

Quality management, inspections and quality notifications.

SIEMENS TEAMCENTER

TEAMCENTER

Product data management (PLM) and document management.

BAAN

ERP system for production, warehousing and logistics processes.

IMPULS

Production management and shop floor data collection.

OFFICE & PRODUCTIVITY

Microsoft 365

MICROSOFT OFFICE

Word, Excel, PowerPoint, Outlook and more.

MICROSOFT EXCEL

Advanced spreadsheets, data analysis, reports and dashboards.

Libre Office

LIBREOFFICE

Open-source office suite for documents, spreadsheets and presentations.

OPERATING SYSTEMS

WINDOWS

Primary operating system for measurement and engineering applications.

LINUX

Used for servers, scripting, automation and specialized applications.

DIGITAL COMPETENCIES

- ✓ Data Acquisition
- ✓ 3D Data Processing
- ✓ Dimensional Analysis
- ✓ GD&T Evaluation
- ✓ Reporting & Documentation
- ✓ ERP & Quality Systems
- ✓ Process Support
- ✓ Continuous Improvement

TECHNOLOGY ENABLING QUALITY

The right software and systems empower accurate decisions, efficiency and quality at every stage.

CAD DATA • 2D / 3D DRAWINGS • TECHNICAL DOCUMENTATION • REPORTING • DATA ANALYSIS • QUALITY CONTROL • PROBLEM SOLVING

CORE COMPETENCIES

A comprehensive skill set built through years of experience in **quality control**, **dimensional inspection** and **process improvement** across various industries.

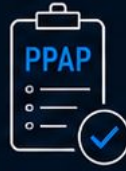

01

GD&T

Application and interpretation of Geometric Dimensioning & Tolerancing to ensure design intent.

02

PPAP

Preparation and support of PPAP documentation for automotive requirements.

03

INCOMING INSPECTION

Verification of incoming materials and components to ensure compliance with specifications.

04

SUPPLIER QUALITY

Supplier evaluation, development and performance monitoring to maintain high quality standards.

05

AIAG CORE TOOLS

Proficient in APQP, PPAP, FMEA, MSA, SPC and Control Plan methodologies.

06

SPC

Statistical Process Control to monitor process stability and drive data-based decisions.

07

MSA

Measurement System Analysis to validate accuracy, precision and repeatability of measuring systems.

08

FMEA

Failure Mode and Effects Analysis to identify risks and prevent potential quality issues.

09

LEAN MANUFACTURING

Lean principles and waste reduction techniques to improve efficiency and flow.

10

SIX SIGMA

Data-driven problem solving using DMAIC methodology to reduce variation and defects.

11

PROCESS IMPROVEMENT

Continuous improvement of processes to enhance quality, productivity and customer satisfaction.

12

ROOT CAUSE ANALYSIS

Systematic analysis to identify root causes and implement effective corrective actions.

COMBINATION OF **TECHNICAL KNOWLEDGE**, **ANALYTICAL SKILLS** AND **QUALITY MINDSET** TO DELIVER RELIABLE RESULTS AND DRIVE EXCELLENCE.

ACCURATE

Focused on precision and reliability.

RESPONSIBLE

Committed to quality, safety and compliance standards.

COLLABORATIVE

Working with teams and suppliers to achieve common goals.

RESULTS DRIVEN

Using data and experience to deliver measurable results.

PROFESSIONAL JOURNEY

Over **20 years** of experience in quality, metrology, process improvement and project management across industries.

20+

YEARS
PROFESSIONAL
EXPERIENCE

100+

PROJECTS
MEASURING & INSPECTION
COMPLETED

MULTI-INDUSTRY

AUTOMOTIVE • AGRICULTURE
CONSTRUCTION • MANUFACTURING

2005 – 2008

Quality Inspector / Component Selection Specialist
Inspection of engine components, leak testing, penetration testing.

Quality Control

Leak Testing

Penetrant Testing

Fiat Powertrain

2008 – 2011

CNC Line Operator
Production of engine parts, operation of CNC lines, process control.

CNC Operation

Production

Process Control

Performance Monitoring

2011 – 2013

Quality Controller / Process Auditor / Metrology Technician
3D measurements, process audits, analysis and reporting.

CMM

PC-DMIS

Taylor Hobson

Audits

2013 – 2014

Process Optimization Specialist
Lean Manufacturing, OEE analysis, process optimization in production.

Lean

OEE

Optimization

Data Analysis

2014

Production Supervisor / Change Leader
Team leadership, production organization, process improvement.

Team Management

Planning

Execution

Continuous Improvement

2014 – 2015

Department Technician
Kaizen, FMEA, Lean, workstation design, work instructions.

Kaizen

FMEA

Lean

Work Instructions

2015 – 2017

Production Process Coordinator
Planning and coordination of production processes, efficiency analysis, reporting and improvements.

Process Planning

Production Monitoring

Efficiency Analysis

Reporting

2017 – 2018

Warehouse Operative
High-bay warehouse, logistics and inventory management.

Reach Truck

High-Bay Warehouse

Logistics

Inventory Management

2018 – 2019

Production Process Coordinator
Process coordination, improvement initiatives, training and documentation.

Process Management

Improvement

Training

Documentation

2019 – 2020

Foreman – Automatic Welding Shop / Team Leader
Team of ~30 people, production supervision, quality control, process & safety management.

Team Leadership

Production Supervision

Quality

Gateway Management

2020 – 2022

Quality Controller
Quality procedures, inspections, reporting, non-conformance analysis.

Quality Control

Inspections

Reporting

Corrective Actions

2022 – 2024

Quality Controller
Process monitoring, inspections, supplier control, quality documentation.

Quality Control

Process Monitoring

Supplier Control

Documentation

2024 – Present

Quality Controller / Metrology Specialist
CMM, 3D scanning, GD&T, PPAP, supplier quality, SAP, Teamcenter.

Measurements

RELIABLE
Results

DATA DRIVEN
Decisions

CONTINUOUS
Improvement

01

PPAP MEASUREMENTS

- PPAP Documentation
- Dimensional Reports
- First Article Inspection
- Supplier Approval

REAL DOCUMENT EXAMPLE
Confidential data removed.

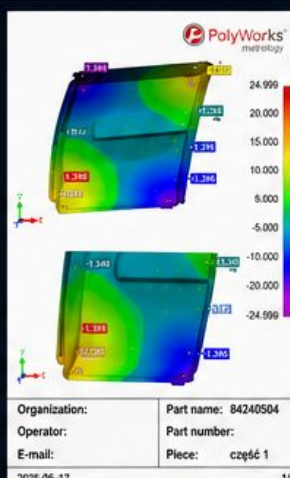

02

3D SCANNING

- CAD vs Scan Comparison
- Color Map Analysis
- Welded Structures
- Large Components

REAL PROJECT EXAMPLE
Confidential data removed.

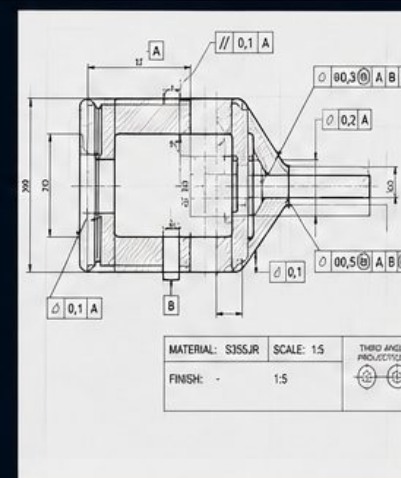

03

GD&T ANALYSIS

- Position
- Profile
- Flatness
- Parallelism
- Runout

04

INCOMING INSPECTION

- Steel Components
- Castings
- Aluminium Parts
- Plastic Components
- Dimensional Verification

05

SURFACE ROUGHNESS

- TESA Rugosurf 90G
- Taylor Hobson
- Ra / Rz / Rq
- Waviness
- Form Analysis

06

COATING THICKNESS

- ElektroPhysik
- Powder Coating
- KTL Coating
- Paint Inspection
- Non-Destructive Measurement

07

WELDED STRUCTURES

- Frames & Chassis
- Welding Fixtures
- Agricultural Machinery
- Large Fabricated Assemblies
- Dimensional Control of Welded Parts

08

SUPPLIER QUALITY

- Supplier Evaluation
- Incoming Quality
- NCR & Complaints
- Root Cause Analysis
- Corrective Actions

SUPPORTING QUALITY FROM **SUPPLIER APPROVAL**
THROUGH DIMENSIONAL VERIFICATION TO **FINAL PRODUCTION RELEASE.**

PROFESSIONAL CERTIFICATIONS & EXPERTISE

International certifications and practical training supporting quality management, metrology, manufacturing excellence and digital transformation.

THANK YOU FOR YOUR TIME

MEASURE.
ANALYZE.
IMPROVE.

Thank you for viewing my Quality & Metrology Portfolio. I am open to new professional opportunities where I can use my experience, knowledge and passion for quality to create real value.

WHY WORK WITH ME?

QUALITY FOCUS

Always aiming for the highest standards

ANALYTICAL THINKING

Data-driven decisions

PROBLEM SOLVING

Finding root causes, delivering solutions

TEAM PLAYER

Effective cooperation with production, engineering and suppliers

CONTINUOUS DEVELOPMENT

Always learning, always improving

LET'S BUILD BETTER QUALITY TOGETHER

I am ready to contribute my skills and experience to your team.
